

ART + science = PROGRESS

ICC SCHOOL SUMMER CAMP

8:30AM~9:20AM	Mandarin Chinese	Focuses on Chinese listening, speaking, reading and writing skills. Introductions to Chinese culture, festivals, customs, and simple poetry.
9:30AM~10:20AM	Singapore Math	Singapore math teaches students the how and why of foundational math by steadily building skills with the goal of preparing them for more advanced topics.
10:20AM~10:50AM	Indoor / Outdoor Activities	Fun filled time for children to engage in physical and social activities.
11:00AM~11:50AM	Science	Program leads children into world of physical, life, and Earth sciences. Each lesson introduces new vocabulary words and themes through stimulating visuals and projects. Our goal is to encourage our children to explore the world.
11:50AA~12:40PM	Lunch	Time for children to enjoy nutritional meals brought from home.
12:40PM~1:30PM	Literature Circle	Our program fosters the love of reading by introducing our students to a wide variety of genres and style of literature. We provide diverse theme-based reading, further cultivate children's interest in all subjects.
1:40PM~2:30PM	Music, Arts & Crafts	Our program encourages creativity by introducing various forms of arts and allow them to create artworks using different mediums and styles. Children are also introduced to a wide variety of Chinese and English art terms and expressions.
2:40PM~3:30PM	Engineering / Technology	Introduces basic application-oriented engineering, scientific knowledge, technical skills, and concept.
